

Silex cleaning products information

Silex ALTEC LT 245 Cleaning Gel The total cleaning solution for your kitchen

The diluted gel-like ALTEC LT 245 adheres to vertical surfaces, soaks the dirt by a single application. It is ideal for cleaning grills, waffle bakers, range hoods, ovens, stainless steel bench tops, splashbacks, walls, windows, light domes, filters, ceilings and tiles. Easy to use – simply spray on cold surface, leave on and scrape off with silex stainless steel spatula.

- Removes oils and fats automatically
- Removes carbon build-up
- Dissolves carbon without harming surfaces
- Saves time
- Biodegradable
- No harsh scrubbing
- 1 litre bottle concentrated liquid, dilutes up to 20 litres

Silex STEELFINISH Spray

STEELFINISH cleans, polishes and protects all metal surfaces in one go. It protects against corrosion, produces a brilliant shine and repels grime and water. STEELFINISH makes cleaning easier and reduces the build-up grease and grime. Also useable on damp surfaces. Most importantly, it does not leave the immense greasy surface, that is known from other cleaners. STEELFINISH has a very high efficiency.

It is ideal for all SILEX ACS, T and S Class models, stainless steel fittings, chrome, copper brass, enamel, smooth synthetic materials, rang hoods, sinks, ovens, elevators, doors, window frames, bars etc.

Easy to use – remove most of the grime, then spray finely on a dry cloth for larger areas or directly for smaller areas. Rub dry to leave a brilliant shine. Use it very sparingly.
